

Blister Packing Info

Blister Pack Examples for Prescriptions

A blister pack is a form of tamper-evident packaging where individually sealed tablets are pushed through the foil to administer the medication.

All tablet, capsule, and gummy medications (prescription medications, over-the-counter medicines, vitamins, sleep aids, and supplements) must be separated into individual doses and sealed in blister packaging.

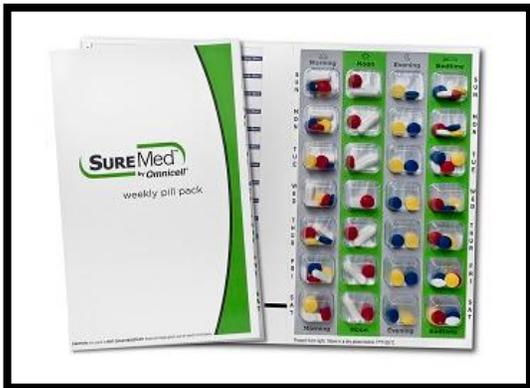

Medications brought in pillboxes or baggies cannot be accepted.

State regulations require all medication to be in containers processed by a pharmacist or manufacturer. We cannot make exceptions.

****Prescription medications are required to be blister packed by a licensed pharmacist and cannot be accepted if not properly labeled with info as listed below.****

Blister packaging must include a medication label with: Camper's name, medication name, dose, strength, and when to give. Label must also match the medication information provided in CampDoc.

*Medications can be blister packed together if they are to be given at the same time.
Ensure that each medication is clearly labeled on the packaging.*

Blister Pack Examples for Over-the-Counter Medications

Over-the-Counter Medications must be separated by individual doses and sealed in the manufacturer's packaging OR be blister packed by a pharmacist.

Medications sent in bottles, sandwich bags, or pillboxes cannot be accepted.

Blister Pack Pharmacies List

Many pharmacies require the prescription be filled at their pharmacy in order to blister pack a medication. Allow 3 to 5 days for this service, depending on what pharmacy you choose, as it is not typically a same-day service. Please call and ask the pharmacy's specific policy ahead of time.

Controlled medications such as most ADD/ ADHD meds are usually 30-day prescriptions and cannot be refilled early. By law, pharmacies cannot blister pack controlled medication that has already been filled at another pharmacy; a current written or electronic prescription is required. Please plan ahead if your camper will need controlled medications at camp.

****We cannot accept a blister packed prescription medication that is not packaged by a licensed pharmacist.****

Pharmacies with an asterisk*: require the prescription to be filled there in order to blister pack.

If the pharmacy you are using does not have an asterisk, please call ahead of time to see if they charge a fee or if they require any extra labels to blister pack your prescriptions.
