

Blister Packing

Blister Pack Examples for Prescriptions

Medication blister packaging should include: camper's name, medication name, dose, strength, and when to give.

Medications can be blister packed together, if they are to be given at the same time.

Ensure that each medication is clearly labeled on the packaging.

Blister Pack Examples for Over-the-Counter Medications

Over-the-Counter Medications must be separated by individual doses and sealed in the manufacturer's packaging (not in a bottle, sandwich bag, or pillbox) OR must be blister packed by a pharmacist.

WINSHAPE CAMPS
BLISTER PACK
PHARMACY PROVIDERS

Please note: Blister packing is also referred to as “bubble” packing. Most pharmacies require that their pharmacist fills the prescription at their pharmacy in order to blister pack the medication. Some will accept transferred prescriptions from another pharmacy. Most will not fill something that you bring in, even if it is in the original bottle. Please call and ask the pharmacy’s specific policy ahead of time. Most prices vary from \$1.50-\$25 per card, depending on pharmacy and number of medications/doses. Also, please allow 1-5 days for this service, depending on what pharmacy you choose as it is, generally, not a same day service.

We will not accept a blister packaged medication that was not completed by a licensed pharmacist.

* : Pharmacies that require the prescription to be filled there in order to blister pack.
